

Lenovo Career Mentoring Day

For Wounded Warriors and Disabled Veterans

1009 Think Place, Morrisville, NC
November 9, 2016, 9:00 a.m. – 3:00 p.m.

Career Mentoring Day is your opportunity to learn about careers at a leading global technology company

Lenovo is the world's fastest-growing major PC company and is continually ranked among the top PC makers. We serve customers in more than 160 countries. But we see the people who use our technology as doers. We develop the tools that help them do more, do better, even do what's never been done. We tinker for the tinkerers. We create for the creators. And our tools are legendary. We design Think and Idea-branded consumer PCs, and everything from smartphones to tablets, laptops to servers—and whatever is coming next. It's an era we call PC+, and it's only just beginning. Mobile devices. Smart TVs. Cloud computing. Lenovo was formed by Lenovo Group's acquisition of the IBM Personal Computing Division. Today Lenovo is a \$30+ billion US personal technology company with major research centers in Yamato, Japan; Beijing, Shanghai, and Shenzhen China; and Raleigh, North Carolina. Attend Career Mentoring Day and learn about career opportunities at Lenovo <http://www.lenovocareers.com/>.
